## INNOVATIVE SOLUTIONS

Our company provides value by combining technical knowledge with commercial potential, production and service. As a result, we create customized solutions based on modern technology.

### We have developed our online store and online tools in order to give our customers:

- ability to automate orders
- ability to order multiple products via Excel list
- placing orders using QR code or barcode
- comparison engine
- configurators
- dedication business terms

We offer wide range  
of industrial products at:  
[www.pneumat.com.pl](http://www.pneumat.com.pl)

### Our online platform is a new level of efficiency of communication in business.

### We focus on functionality and safety of information.

WE SUPPORT **THE INDUSTRY**

## STORAGE

We maintain a stock to ensure continuity of supply and we are working with WMS integrated with ERP. We have the latest storage systems at our disposal, which uses the rack stacker crane system.

**Warehouse automation means - first of all - optimization of work, more space for products through the use of modern high bay warehousing systems.**

**Moreover we implemented technologically advanced intelligent storage system that gives us ability to deliver 1800 parcels per day.**

## LOGISTICS

We decided to automate logistics processes. We are working with WMS integrated with ERP and shop line. We have introduced two-shift system of work in the warehouse.

We also set high standards in addition to the packaging products - including custom packaging.

We focused on two characteristics: safety of goods during transport and aesthetics.

## FOREIGN DISTRIBUTION

Our company has also experience in cooperation with foreign business partners, since we distribute abroad - among others in the Czech Republic and Ukraine.

# Pneumat.

-  Head Office
-  Branch outside

Our aim is to develop business with further distribution points and we are open for cooperation in this field.

WE SUPPORT **THE INDUSTRY**

## ABOUT US

We are a family company. We combine manufacturing, trade and services in wide range of industrial solutions. We think of the business in the long term, guided by the values and primarily on partnership, engagement, development and reliability.
